Parkside Place Complex

## UGT RECEIVES TWO STATE GRANTS

### \$2 Million H2OPA Grant

Approval of Upper Gwynedd's H2OPA \$2 million grant application will result in the consolidation of the North Wales sanitary sewer treatment system with Upper Gwynedd's regional waste water treatment facility. This jointure project will address DEP permit concerns, result in greater economies of scale, create savings for rate payers, support economic growth, and offer a statewide model for consolidation between municipalities, local, and regional authorities.

Kenneth E. Kroberger, President of the Upper Gwynedd Board of Commissioners, heralded this approval as "a major initiative that will facilitate the sewer consolidation," and he stated that "the positive working relationship between Upper Gwynedd and North Wales is an excellent example of how two municipalities can work together toward common goals and the mutual benefit of their constituencies." "The unyielding support of Senator Stewart Greenleaf and Representative Kate Harper throughout the entire planning process was critical to the success of this project," said Mr. Kroberger. He also extended his appreciation to the North Wales Water Authority in working out the details of the Intermunicipal Agreement

**Pictured First Row: Commissioner Thomas A. Duffy, President of Commissioners Kenneth E. Kroberger, Commissioner James A. Santi, NWWA Board Chair Joan Nagel, NWWA Member Herb Kavash, NWWA Member Albert Tenney, NWWA Member Carene Sanders.**

**Second Row: Township Manager Leonard T. Perrone, Vice President of Commissioners M. Clare Edelmayr, Commissioner Eugene Ziemba, Representative Kate Harper, Senator Stewart Greenleaf, NWWA Donna Mengel, Executive Director of NWWA Robert Bender.**

and thanked representatives from DEP and DCEP for their help in addressing the technical and permitting requirements in a proactive manner that has made this project possible.

Upper Gwynedd currently provides regional sanitary sewer services to: Montgomery Township; Worcester Township; Lower Gwynedd Township; Whitpain Township; Upper Gwynedd Township

and will now add North Wales Borough. Upper Gwynedd Township has secured in excess of \$8 Million through grant funding from the H2OPA, PennVest, and Safe Water Programs in support of its capital program and this consolidation. Application and engineering services were provided by Triad Associates and Environmental Engineering and Management Associates who worked with Township Manager, Len Perrone, and North Wales Water Authority Director, Robert Bender, and their staff.

### Pennsylvania Safe Water Grant

Upper Gwynedd Township announces the receipt of a \$100,000 Grant from the PA Safe Water Act Grant Program. This Grant received from the Commonwealth will assist in funding the early engineering and design work related to the previously announced interconnection of the North Wales Water Authority's (North Wales Borough) interconnection of its sanitary sewer system into the sanitary sewer system of Upper Gwynedd Township.

The Township wishes to thank State Senator Stewart Greenleaf and State Representative Kate Harper for their support given to this grant award. ❄️

**WHAT IS STORMWATER?**

Stormwater is the runoff from precipitation that flows into storm drains or other water sources.

**WHERE DOES WATER IN THE STORM SEWER GO?**

Water and anything else that is in the storm sewer eventually flows into local streams and ponds. A storm sewer system is not treated or cleaned before being discharged into our local waters. This is why your assistance is needed to improve local water quality.

**THINGS YOU CAN DO TO HELP LIMIT STORMWATER RUNOFF POLLUTION**

**Vehicles:** Make sure that your vehicle is not leaking any fluids.

**Lawn & Garden:** Use fertilizers sparingly and consider switching to an organic.

**Pet Waste:** Pick up after your pet and dispose of the waste in your trash can.

**Do not dump liquids or put trash into a storm drain!**

**STORM DRAIN MARKERS**

These markers educate and discourage anyone who may be looking to dump into the storm drain. Upper Gwynedd Township has put storm drain markers on many of its storm drains. If you know of any storm drains that are missing markers please email the locations to [dmcreary@uppergwynedd.org](mailto:dmcreary@uppergwynedd.org)

**POLLUTION/ILLICIT DISCHARGE**

To report spills, dumping, or discharges of pollutants into the street, storm water system or streams, call the police at 215-699-5861.

**THINGS YOU CAN DO TO HELP LIMIT STORMWATER RUNOFF VOLUME**

**Install a Rain Garden**

A rain garden is a planted shallow depression designed to catch and filter rainfall runoff. The garden captures rain from a downspout or a driveway. The water sinks into the ground, aided by deep rooted plants that like wet and dry conditions. A residential rain garden should dry out between rains and should only hold water for approximately 24 hrs. This timeframe prevents standing water that could create a mosquito habitat. More information on rain gardens can be found on the web. Make sure to use plants that can take a wet environment.

**Install a Rain Barrel**

Rain barrels are installed at the bottom of your downspouts and catch the rain water that comes off the roof. You can then reuse that water to water your garden, yard or to wash your car. Please try to empty your rain barrel between rain events to maximize the effectiveness of the rain barrel. You can either purchase your rain barrel from a home center or online or you can make your own.

**Plant trees and shrubs**

Planting trees, shrubs and/or plants that have a deep root structure helps storm water infiltrate into the ground. They also catch rain water on their leaves and branches which helps to reduce the amount of runoff during a storm. 🌱

**A REMINDER ABOUT MAILBOX PLACEMENT**

In order to minimize the possibility of damage to your mailbox during snow plowing operations, mailboxes should be installed so that the front of the mailbox is even with the back of the curb. This also applies to paving work during the summer season. In areas that have no curbs, the face of the mailbox should be setback six inches from the edge of the blacktopped roadway.

It is important for residents to realize that a certain amount of momentum is necessary in order for plows to move snow from the roadways. Township employees as well as contracted snow removal personnel make

**Mailboxes should be installed so the front is even with the back of the curb. In areas that have no curbs, the face of the mailbox should be setback 6 inches from the road.**

every effort to avoid hitting or damaging mailboxes, however, accidents do happen.

The Township will not assume responsibility for damage to mailboxes that are improperly located or for mailboxes that show evidence of prior post deterioration. The Township does not recommend the installation of any type of plastic mailbox or mailbox post. This material becomes brittle in cold weather and can be broken through contact with the weight of the plowed snow. The Township will only consider mailbox damage claims when the Township's plow came into physical contact with the mailbox or post. 🌱

## UGT RECEIVES AWARDS FOR THE SUMNEYTOWN PIKE WIDENING & BRIDGE PROJECT

### PA ASSOCIATION FOR BRIDGE CONSTRUCTION & DESIGN 1ST PLACE AWARD FOR SHORT SPAN PROJECTS

Upper Gwynedd Township is honored to announce that the Pennsylvania Association for Bridge Construction and Design gave the Township first place for the recently completed Sumneytown Railroad Bridge Project. The bridge was described as a single span, steel girder railroad bridge over Sumneytown Pike. It was built to increase the vertical clearance and alleviate traffic congestion along Sumneytown Pike near and around the Merck facilities in Montgomery County, Pennsylvania. The project received the award for several reasons including the unique financial partnership between Upper Gwynedd Township, Merck Pharmaceuticals, and Montgomery County. Additional design partners included CSX Transportation who operates the rail line and SEPTA who owns the rail line bridge. There were several key construction restraints that needed to be addressed to make the project possible.

These key constraints included:

- ☞ Client and funding changes resulting in right sizing the bridge to meet financial constraints.
- ☞ To accommodate the need to construct the bridge within short time allowances. High early strength concrete for the superstructure was utilized and provided a considerable cost savings over more expensive precast elements.
- ☞ The railroad allowed an innovative and aggressive schedule of three two-week outages to limit disruption to rail service. The new superstructure was built during the first outage and the track was restored while maintaining the structural integrity of the existing bridge allowing railroad operations to resume between outages.
- ☞ During construction the schedule was further optimized by combining the last two outages to accelerate construction and reduce risk while meeting the railroads operational needs.

The completion of the bridge was the cornerstone of the Sumneytown Pike Phase II Highway Widening Project which included widening from Beaver Street to Allentown Road utilizing a five lane cross section, installing new traffic signals, installing a

**Pictured L to R:**  
Township Manager Leonard T. Perrone, Commissioner Thomas A. Duffy, Commissioner James A. Santi, President of Commissioners Kenneth E. Kroberger, Vice President of Commissioners M. Clare Edelmayer

new stormwater system, and the relocation of seven utilities.

The project was sponsored and funded by the joint efforts of Upper Gwynedd Township, Merck & Co., Inc., and the County of Montgomery. The project engineers included AECOM (Bridge), McMahon Associates (Highway and Road Design), and early contributors to the project included Czop/Specter Engineers. The project was constructed by Allan A. Myers, LLP, of Worcester, PA. 🌟

### THE PARTNERSHIP TRANSPORTATION MANAGEMENT ASSOCIATION OF MONTGOMERY COUNTY COMMUNITY TRANSPORTATION AWARD

Ms. Peggy Schmidt, Executive Director of The Partnership Transportation Management Association of Montgomery County (PTMA) represented the PTMA, a non-profit organization, dedicated to improving the mobility of all individuals in the extended North Penn Region of Montgomery County. She stated, "for the past eighteen years the PTMA has singled out worthy transportation projects, individuals and municipalities in order to commend their efforts in approving mobility." On June 17, 2011, at the PTMA annual meeting they

presented their community award to Upper Gwynedd Township and Merck & Co., Inc. for the recently completed Sumneytown Pike widening and bridge project. In her statement Ms. Schmidt extended her sincerest thanks to the Board of Commissioners, Township Manager Len Perrone, and the residents of Upper Gwynedd Township that dealt with the inconvenience of the construction. On behalf of the Board of Directors of The Partnership TMA of Montgomery County, Ms. Schmidt congratulated the Township Board and staff. 🌟

**Pictured L to R:** Director of Merck's West Point Regional Engineering Gregory S. Landis, Commissioner James A. Santi, Executive Director of PTMA Peggy Schmidt, President of Commissioners Kenneth E. Kroberger, Commissioner Eugene P. Ziemba

The show transforms Radio City Music Hall into a massive magical canvas!

## ON BROADWAY

### Chicago

January 7, 2012 \$125

Depart UGT Twp Bldg 8am

Return UGT Twp Bldg 8pm

All seats are orchestra

Set in the legendary city during the roaring "jazz hot" 20s, Chicago tells the story of two rival vaudevillian murderesses locked up in Cook County Jail. Nightclub star Velma's serving time for killing her husband and sister after finding the two in bed together. Driven chorus girl Roxie's been tossed in

the joint for bumping off the lover she's been cheating on her husband with. Not one to rest on her laurels, Velma enlists the help of prison matron Mama Morton and slickster lawyer Billy Flynn, who turn Velma's incarceration into a murder-of-the-week media frenzy, thus preparing the world for a splashy showbiz comeback. But Roxie's got some of her own tricks up her sleeve...

### Godspell

January 7, 2012 \$125

Depart UGT Twp Bldg 8am

Return UGT Twp Bldg 8pm

All seats are orchestra

Enjoy the 40th Anniversary production and first-ever Broadway revival of Stephen Schwartz's rock musical GODSPELL. Experience the much-loved musical celebrating the life and teachings of Jesus. The Gospel according to St. Matthew, 1970's style. As Jesus taught with parables and storytelling Godspell utilizes clowning, pantomime, charades, acrobatics and vaudeville to tell the story of Christ's passion. Familiar songs include "Day by Day," "Turn Back, O Man" and "Bless the Lord."

### Sister Act

January 7, 2012 \$165

Depart UGT Twp Bldg 8am

Return UGT Twp Bldg 8pm

All seats are orchestra

Everyone's falling head over habit for Sister Act, Broadway's feel-amazing musical comedy that takes the beloved film to hilarious new heights! Audiences of all ages will adore this high-energy hit, which features an uplifting new score by 8-time Academy Award winner Alan Menken (Little Shop of Horrors, The Little Mermaid & Enchanted) mixing the sounds of disco, soul, funk, R&B and Broadway. WOR Radio says "You'll be dancing in the aisles all night!" Direction is by 4-time Tony winner Jerry Zaks (La Cage aux Folles, A Funny Thing... & Guys and Dolls).

# Events & Classes

Monday or Wednesday \$24

A popular exercise class that strengthens the upper body, thigh, gluteal and abdominal muscle groups. Set to music, this class is for men and women who want to look and feel great. Bring a mat and weights (optional) to class.

### UK Petite Soccer

3-5 years old

September 21 - October 26 \$89

Wednesdays 12:15-1:15pm

or 1:30-2:30pm

U.K. Petite Summer Soccer Programs introduce 3 - 5 year old children to the fun, healthy and exciting world of soccer. Each day is structured to promote individualized learning through the medium of fun soccer related games and activities. The U.K. Elite philosophy and methodology is based on cutting edge educational principles of how children learn techniques and develop them into skills while having a fantastic time! Parents are welcome to stay and join in the fun!

### Sports Squiggles

Tuesdays  
3-5 years old

September 27 - October 25

\$45 if pre-registered before 9/16 11am-

\$65 if registered after 9/16 12pm

or 1-2pm

Total Sports provides a great opportunity for children to develop skills and knowledge in a wide variety of sports. This program provides a positive role model for your children and gives them the benefit of learning from a consistent and committed coaching team while learning the basics in soccer, basketball, tag rugby, track & field and mini tennis.

### Chess

Upper Gwynedd Community Center  
6-14 year olds

September 30 - November 18 \$96

Fridays 6pm - 7pm

Spend a week playing and learning about chess from the Silver Knights chess coaches! Each camper receives a T-shirt and a tournament-style chess set.

Activities include learning openings, tactics, endgames, studying master games, playing rated games against fellow students, and analyzing the students' games.

## GARDENING WORKSHOPS

offered by the Penn State Cooperative Extension Service Master Gardeners  
7pm at the UGT Building; \$5 per workshop

### Gardening for Winter Interest Tuesday, September 20

Many of us focus our gardening efforts on our summer landscape. But with some creative plant selection and placement, you can integrate color and texture, plus nurture wildlife in your fall/winter garden as well.

### Preparing your Garden for Winter

Thursday, September 29

Time to take a break and close the garden down for the season. We'll cover general garden clean up, planting and dividing, fall and winter lawn care, special precautions for certain plants and how to minimize winter damage to trees and shrubs.

### Indoor Landscaping

Wednesday, October 26

Indoor Landscaping with colorful & flowering houseplants. Design ideas as well as practical advice about using houseplants in simple, attractive arrangements throughout the home. Q&A and handouts included.
