Wacky World of Science (for ages 7-11)

Date: August 14-August 18

Time: Full Day 9am – 4pm, Half Day 9am-12:30pm OR 12:30pm-4pm

Cost: Half Day \$235; Full Day \$415

We've taken our after-school club programs from 2016-17 and turned them into a fun-filled week-long camp! Each day we'll explore a different topic: Become kitchen chemists and investigate ingredients that pop, fizz, and foam. Transform cream to butter, create gooey gum drops and make your own frozen slushie. Become a geologist and build and erupt your own volcano. Enter the world of paleontology and uncover the stories that fossils tell and participate in a dinosaur dig. Put on your CSI badge and use forensic techniques to lift prints, conduct simulated blood typing and use a black light to reveal glowing evidence. Blast off to an out of this world adventure as you investigate space and the final frontier. Launch film canister rockets, construct a telescope and take on an astronaut challenge. Finally join our physics team and make Bernoulli ball poppers, create an electric game and mix up a fizzy, foaming fountain!
